## Tour de France Jerseys

### Yellow - Maillot Jaune

The Yellow Jersey of the Tour de France is awarded to the rider with the quickest overall time and is, therefore, the race leader. It was created in 1919 as an homage to the yellow paper of l'Auto magazine, founder of the Tour de France in 1903.

Eddy Merckx wore the Maillot Jaune for a record 111 days. This Eddy did because he was a good time time-trialist, proficient climber and great 'Le Patron' of the race.
